

YASH MAKWANA

OBJECTIVE

Flutter Developer skilled in building offline-capable mobile applications. Seeking to create high-performance, cross-platform solutions in enterprise environments

PROJECTS

Website for CR Work Management

- Built an attendance automation tool using HTML, CSS, and JavaScript to generate absence messages.
- Enabled quick absence reporting by requiring only roll number input.

Loan Finance Manager

- Built a loan management desktop application using C#, Windows Forms, and SQL Server.
- Implemented loan, payment, and reporting modules with automated calculations.

Application for CR Work

- Built an offline attendance management app using Flutter (Dart) and SQLite for CRs and faculty.
- Automated absence message generation, analytics, and HTML/text report exports.
- Implemented local database storage with backup and restore functionality.

EXTRA - CURRICULAR

Class Representative (CR)

Serving as a liaison between students and faculty, ensuring clear communication and timely issue resolution.
